

HSS

Meet Our Residents

Academic Year 2025–2026

HSS Education Institute

FRONT COVER

Row one: Andrew Sama Jr., MD, MBA, Claire D. Eliasberg, MD; Heather Haeberle, MD, Hailey Huddleston, MD; Gabriel Joseph, MD, MBA, Matthew S. Conti, MD

Row two: Lina Ibrahim, MD, MSc, Duretti Fufa, MD; Residents enjoy the annual Welcome BBQ

INSIDE COVER

Row one: (Clockwise, from bottom left) Duretti Fufa, MD, Alexis Batiste, MD, Sreetha Sidharthan, MD, Bennett Propp, MD, Colin Neitzke, MD, Spencer Sullivan, MD; Seong Jang, MD; Julia Retzky, MD, Ryann Davie, MD

Row two: Rafa Rahman, MD, MPH; Branden Sosa, MD, Kristin Halvorsen, MD, MBA, Taylor Stauffer, MD, Rajiv Reddy, MD, Mark Megerian, MD; Andrew Leali, MD, Rajiv Reddy, MD

Row three: Stockton Troyer, MD, Sofia Hidalgo Perea, MD, Jude Alawa, MD, MBA; Douglas E. Padgett, MD, Frannie Coxe, MD, Andrew Sama Jr., MD, MBA, Andrew A. Sama, MD; Austin Kaidi, MD, MSc, Duretti Fufa, MD

Jude Alawa, MD, MBA, grew up in Miami, Florida. He earned his undergraduate degrees in Molecular, Cellular & Developmental Biology and Global Affairs from Yale University and completed an MPhil in Public Health at the University of Cambridge. Jude received his MD and MBA from Stanford University as a Knight-Hennessy and Samvid Scholar. Originally from

Damascus, Syria, he has worked to expand healthcare access in humanitarian settings through public health programming and the development of scalable health innovations. In his free time, he enjoys playing piano, basketball, and pickleball, skiing, traveling, and spending time with family and friends.

Alexis Batiste, MD, was born in Keflavík, Iceland, and spent his early childhood in Sicily, Italy, before relocating to Florida. He earned his undergraduate degree in exercise physiology from Florida State University, where he was a member of the marching band and played alto saxophone. Following graduation, he worked as a middle and high school science teacher in

Florida, teaching for SSTRIDE—a pipeline program that supports underrepresented students interested in STEM careers. He earned his medical degree from Baylor College of Medicine, where he founded a chapter of Black Men in White Coats. During medical school, Alexis completed a dedicated research year in Sports Medicine in the Department of Orthopaedics at the University of Colorado. In his free time, he enjoys playing basketball, dancing, and spending time with his partner and cat, Darien and Mango.

Sofia Hidalgo Perea, MD, grew up in Madrid, Spain. She attended Duke University, where she majored in biology with a focus on anatomy and physiology and minored in chemistry and global health. Following graduation, she worked as a research assistant in the Pediatric Orthopaedic Department at HSS before earning her medical degree from the Renaissance School of Medicine

at Stony Brook University. Outside of medicine, she enjoys spending time with her fiancé, Leo, taking long walks along the East River with their dog, Lulu, and following Formula 1 racing.

Colin Charles Neitzke, MD, was born and raised in Perham, Minnesota. He attended the University of Minnesota for his undergraduate studies, where he majored in neuroscience, minored in business management, and was a member of the club slalom waterski team. Colin earned his medical degree from Chicago Medical School. He spent an additional year

during medical school to serve as a research coordinator within the Adult Reconstruction and Joint Replacement (ARJR) Service at HSS. In his free time, Colin enjoys slalom and downhill skiing, weight lifting, running, spending time with his family and friends, trying new restaurants, and watching Minnesota sports. Skol!

Bennett Propp, MD, was born and raised in Westport, Connecticut. He attended the University of Connecticut for both medical school and for his undergraduate studies where he majored in biomedical engineering with a minor in materials science. Before medical school, he performed research on Type 1 Diabetes genomics at Boston Children's

Hospital. During medical school, Bennett worked at HSS as a research coordinator for the JUPITER multi-center study of patellar instability. Bennett enjoys cheering on Huskies basketball, skiing, running, and spending time with family and friends nearby.

Shawn Simmons, MD, MBA, was born and raised in Virginia Beach, VA. He attended the University of Pennsylvania where he majored in sociology and was a member of the varsity men's basketball team. Following graduation, he worked for two years as a clinical research coordinator in the Penn's Sports Medicine department. He completed his medical degree

at Columbia University Vagelos College of Physicians and Surgeons and completed an MBA at Columbia Business School. In his free time, he enjoys playing basketball, traveling, and spending time with family and friends.

Spencer Sullivan, MD, grew up in Franklin, Indiana. He attended Wake Forest University where he received his undergraduate degree in health and exercise science and worked with the Sports Medicine team, servicing the football and soccer teams. He spent two years in NYC, performing research with Dr. Benedict Nwachukwu and the Sports Medicine Institute at HSS. He then

received his medical degree from UNC School of Medicine with a concentration in Medical Education. In his free time, Spencer enjoys playing volleyball, traveling, exploring new restaurants, and spending time with his wife, family, friends, and his dog, Bane.

Olivia Christina Tracey, MD, was born and raised in New York City. She received her undergraduate degree from Yale University, where she majored in history of art and was a core member of the largest, multi-style dance group on campus. She received her medical degree from SUNY Downstate College of Medicine in Brooklyn. During her medical training,

Olivia spent an additional year as the Leon Root Research Fellow in Pediatric Orthopaedics at HSS. In her free time, Olivia enjoys visiting museums, playing guitar, spending time with family and friends, and experimenting with new recipes.

Stockton Troyer, MD, was born and raised in Boise, Idaho. He attended Williams College in Massachusetts, where he majored in chemistry and history and was captain of the varsity alpine ski team. After college, he worked for two years as a consultant in the life sciences space. He received his medical degree from Washington University School of Medicine in St. Louis. In his

free time, he enjoys running, biking (mountain and road), skiing, fishing, climbing, and mountaineering—anything to get outside!

Kristin Halvorsen, MD, MBA, grew up in Connecticut and Vermont. She attended Williams College where she received her undergraduate degree in biology and was a member of the varsity nordic ski team. After college, she completed a post-baccalaureate program and worked as a neurology research coordinator at HSS. Afterwards, she joined Palantir Technologies as a deployment strategist. From there, she completed her medical degree at the Stanford University School of Medicine and her MBA at the Stanford Graduate School of Business. In her free time, Kristin enjoys skiing, running, painting, traveling, and spending time with family and friends.

Prerana Katiyar, MD, grew up in northern Virginia. She attended Carnegie Mellon University for her undergraduate studies, where she majored in neuroscience, minored in chemistry, and was part of a nationally ranked competitive dance team. Following graduation, Prerana worked as a consultant to the Center for Medicare/Medicaid Services (CMS), working on optimizing health policy and infrastructure using data analytics. She then attended Columbia University Vagelos College of Physicians and Surgeons in New York City for medical school. In her free time, Prerana continues to dance, and also enjoys calligraphy, spending time with friends and loved ones, and exploring new coffee shops in NYC.

Jennifer Kunes, MD, grew up near Boston, Massachusetts. She attended Harvard University for her undergraduate education, where she studied biomedical engineering with a minor in English literature. While there, she was a coxswain on the varsity men's heavyweight crew team. After graduating, she spent a year at Brigham and Women's Hospital conducting research on focused ultrasound for non-invasive neuromodulation. She then attended medical school at Columbia Vagelos College of Physicians & Surgeons in New York City. In her free time, she enjoys finding new restaurants in the city, leatherworking, and designing aquariums.

Mark Megerian, MD, was born in Boston, Massachusetts, and grew up in Shaker Heights, Ohio. He attended Tulane University in New Orleans, Louisiana, for his undergraduate studies, where he majored in neuroscience and played club ice hockey. Upon graduation, Mark matriculated to Case Western Reserve University School of Medicine for his medical degree, where he pursued clinical research in sports medicine, shoulder/elbow, and orthopaedic trauma. During medical school, Mark also served as the head coach for a local youth ice hockey team and took on extracurricular studies focusing on healthcare entrepreneurship and surgical innovation. In his free time, he enjoys playing ice hockey and pickleball, skiing, watching Cleveland sports, and spending time with family, friends, and his two dogs.

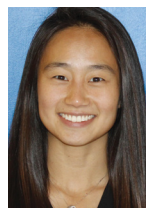

Rajiv Reddy, MD, MS, grew up in Alpharetta, Georgia. He attended the University of Pittsburgh as a part of the 8-year BS/MD program, where he majored in biology and philosophy. During undergrad, he served as a squash coach for middle and high school students and competed on the Bollywood dance team. Rajiv completed his medical degree as part of the Clinical Scientist Training Program, where he conducted research on shoulder pathology and received a master's degree. In his free time, Rajiv enjoys street photography, playing pickleball and trying new restaurants with friends.

Brandon Sosa, MD, grew up in the Bronx, New York with his family who immigrated from Puerto Rico and the Dominican Republic. He attended CUNY-Hunter College for his undergraduate studies, where he majored in biochemistry and minored in economics. After graduating, he completed the HSS PostBac Research Training Program which influenced his passion for translational orthopaedic research. During medical school at Weill Cornell Medicine, Brandon founded Code BLOOM, a mentorship program for underrepresented pre-medical students at his alma mater. In his free time, Brandon enjoys playing basketball, traveling, and spending time with family.

Taylor Stauffer, MD, grew up in Cheshire, Connecticut and completed her undergraduate education at the University of Connecticut and Boston College. At UCONN, she was a member of the alpine ski team before transferring to Boston College where she studied biology and Hispanic studies. After graduation, she was awarded a Fulbright predoctoral research fellowship in Barcelona, Spain, where she conducted research on a novel nanotherapeutic for Crohn's disease at Hospital Clinic. Taylor earned her medical degree from Duke University. In her free time, she enjoys skiing, running, and spending time with her twin sister and older sister.

Raylin Xu, MD, grew up just outside of Philadelphia, Pennsylvania. She attended Harvard for her undergraduate studies, where she majored in molecular and cellular biology and minored in global health and health policy. After college, she spent a year in Germany as a U.S. Fulbright Research Fellow before moving back to Boston for medical school at Harvard. In her free time, she enjoys climbing, hiking, and spending time with family and friends.

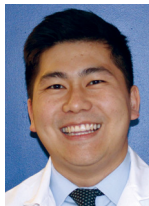

Michelle Zabat, MD, was born and raised in Rochester Hills, Michigan. She graduated from Brown University with an undergraduate degree in health and human biology and food studies. After college, she served as a U.S. Fulbright Fellow to the Philippines, conducting research on the microbiology of food fermentation; subsequently, she moved to Boston to work as a strategy consultant to the pharmaceutical and biotech industries. Michelle completed her medical degree at the NYU Grossman School of Medicine. She currently sits on the Associate Board for the Joyce Ivy Foundation, a non-profit committed to the academic advancement and leadership development of young women from the Midwest. In her free time, she enjoys long-distance running and cycling, fly fishing in upstate New York, and fermenting sourdough in her tiny NYC kitchen.

Lina Ibrahim, MD, MSc, grew up in Chicago, Illinois. She attended Stanford University for her undergraduate studies, where she majored in mechanical engineering, and received her Master of Science in Mechanical Engineering from MIT. She completed her post-baccalaureate pre-health studies at Loyola University in Chicago and then received her medical degree from the Perelman School of Medicine at the University of Pennsylvania. In her free time, Lina enjoys exploring restaurants in NYC, growing her plant collection, and spending time with her family in Cairo, Egypt.

Nicolas Pascual-Leone, MD, grew up in Valencia, Spain and Wayland, Massachusetts. He attended Amherst College for undergrad, where he majored in chemistry and played varsity soccer. Following graduation, he moved to Spain to pursue a career in professional soccer. He earned his medical degree from Perelman School of Medicine at the University of Pennsylvania. He spent an additional year during medical school completing the Leon Root Research Fellowship at HSS. He enjoys playing soccer, training for triathlons, and trying new restaurants with his wife, Safi.

Seong Jang, MD, was born in Seoul, South Korea and grew up in northern Virginia. He attended Princeton University for his undergraduate studies and graduated with a thesis focused in computational cognitive neuroscience. He then received his medical degree at Weill Cornell Medical College in NYC. There, he spent an additional year conducting research at HSS focusing on the applications of deep learning in orthopaedic surgery. In his free time, Seong enjoys playing soccer, exploring city eateries and coffee shops, and spending quality time with loved ones.

Nnaoma Oji, MD, was born and raised in New Brighton, Minnesota. He attended Stanford University for his undergraduate studies, where he majored in biological sciences and spent time abroad caring for patients with traumatic injuries and limb deformities. After graduating, he worked at a health technology start-up in San Francisco before receiving his medical degree from the University of California San Francisco (UCSF). Nnaoma enjoys spending time with his family, traveling, working out, and watching sports.

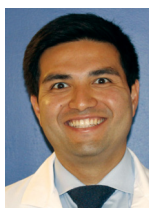

Gabriel (Gaby) Joseph, MD, MBA, grew up just outside Seattle, Washington. He attended Princeton University where he was a member of the varsity soccer team and received his undergraduate degree in molecular biology. Following graduation, Gaby moved to California where he became a part of Stanford University's inaugural class of Knight-Hennessy Scholars.

He completed his medical degree at the Stanford University School of Medicine, and his MBA at the Stanford Graduate School of Business. In his free time, he enjoys playing soccer and golf, watching sports and cooking.

Andrew Sama Jr., MD, MBA, was born in Miami, Florida and grew up in Connecticut. He attended Cornell University, where he studied Biology and Society. After graduation, Andrew moved to New York City to work at a medical technology startup that focused on using deep learning in musculoskeletal imaging before attending the University of Miami Miller School of Medicine for his medical degree. During his time at Miami, Andrew also obtained his Master of Business Administration at the Herbert School of Business. In his free time, he loves fishing, skiing, cooking, spending time with his wife and dachshund, cheering on the New York Giants, and exploring restaurants in NYC.

Tyler Khilnani, MD, was born and raised in New York City. He attended Cornell University for his undergraduate degree, where he majored in biological sciences with a concentration in human nutrition and played club ice hockey for four years. Following a year in New Haven where he performed clinical research in psychiatry at Yale, he returned home to complete his medical degree

at Weill Cornell Medicine. In his free time, Tyler enjoys spending time with his friends and family, cooking, and watching the New York Rangers and Arsenal.

Amy Li Xu, MD, was born in Galveston, Texas, but considers Riverside, California her hometown. She attended Stanford University, where she majored in human biology and captained the cheerleading team, concluding a 12-year competitive career in the sport. After graduation, Amy spent a year working at a community health nonprofit called Project Horseshoe Farm in rural Alabama. She received her medical degree from Johns Hopkins University School of Medicine. In her free time, she enjoys watching college football (GO CARD), listening to country music, and going to [solidcore].

Billy Kim, MD, was born in Seoul, Korea and grew up in Los Angeles. He studied biophysics at Johns Hopkins University and received his medical degree from Duke University, where he had formative experiences working with orthopaedic mentors. In his free time, he likes spending time with his family and friends, exercising, eating/grilling Korean BBQ, and watching the

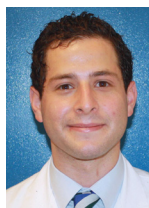

Los Angeles Lakers.

Brittany Ammerman, MD, MBS, grew up in River Vale, New Jersey. She attended the University of Wisconsin, where she majored in Women's Studies and Global Health. She was a member of the Wisconsin Badgers ice hockey team, where she was part of the 2011 National Championship-winning team, competed in four NCAA Frozen Fours, and was nominated as a Patty Kazmaier Memorial Award finalist. She also was a member of the USA Women's National Team throughout her career. Brittany founded the Nikumbuke Soccer League, a nonprofit organization which provides women and girls in remote Kenya the opportunity to participate in sport and receive an education. She was awarded the NCAA Hockey Humanitarian Award for her efforts. Following her undergraduate degree, Brittany completed her Masters of Biomedical Sciences at Rutgers University. She then spent a year as the research assistant in the HSS Women's Sports Medicine Center. Brittany received her medical degree from Penn State College of Medicine. Outside of the hospital, Brittany enjoys working out, pickleball, golfing, and spending time with family.

Olatunde Badejo, MD, was born in Nigeria and grew up in both the Kingdom of Eswatini and Dallas, Texas. He attended Harvard College where he was a Jackie Robinson Foundation scholar and graduated cum laude with a degree in molecular and cellular biology, and a secondary field in the history of science. Following graduation, he returned to Dallas to earn his medical degree from UT Southwestern Medical Center. In his free time, he enjoys traveling, cooking new recipes, and cheering on the Dallas Cowboys.

Samuel Robert Boas, MD, grew up in Connecticut. He attended Tufts University where he studied biology. After graduating, he worked in a pain management clinic in Brooklyn, New York. Sam received his medical degree from Case Western Reserve University School of Medicine. In his free time, he enjoys running in central park, reading Russian literature, fishing, and spending time

with his family.

Taylor Cogsil, MD, was born and raised in Stuart, Florida. For undergraduate studies, she attended Yale University where she received her degree in the history of science, medicine, and public health. After graduation, Taylor moved to New York and worked as a research coordinator in the neurology department at HSS. From there, she made her way to the Midwest and completed her medical education

at Washington University in St. Louis. When she isn't at the hospital, she enjoys rollerblading, pickleball, desserts, game nights, and watching true crime documentaries with her husband, Jeremy.

Mihir Dekhne, MD, grew up in Detroit, Michigan. He attended the University of Pennsylvania, where he received his bachelor's degree in biochemistry and master's degree in chemistry. Following graduation, he moved to Boston and earned his medical degree from Harvard Medical School. In his free time, he enjoys lifting weights, watching Michigan football, and finding new places to eat.

Mitchell Alan Johnson, MD, was born and raised in the suburbs of Detroit, Michigan. He received his undergraduate degree from the University of Michigan where he studied biomedical engineering. After graduation, Mitch attended the Perelman School of Medicine at the University of Pennsylvania where he spent an additional year completing the Benjamin Fox Orthopaedic Research Fellowship at the Children's Hospital of Philadelphia. In his free time, he enjoys playing basketball, pickleball, hiking, and trying new restaurants.

David Andrew Kolin, MD, MSc, was born and raised in Los Angeles, California. For his undergraduate education, he attended Pomona College, where he majored in chemistry. After graduating, David completed a year-long research fellowship at the National Institutes of Health. He subsequently received a master's in epidemiology from the London School of Hygiene and Tropical Medicine. David then moved to New York to obtain his medical degree from Weill Cornell Medicine. When he's not working, David enjoys playing tennis, exploring New York's restaurant scene, and cheering on Tottenham Hotspur.

Yousi (Josey) Oquendo, MD, MSE, grew up in Syracuse, New York. She attended the University of Pennsylvania for her undergraduate studies, where she majored in bioengineering and minored in mechanical engineering and applied science. She was also a three-year captain of the Penn Women's Club Lacrosse team and played for the Penn Women's Rugby team. After graduating she remained at the University of Pennsylvania for an additional year to pursue a master's degree in robotics engineering. Josey received her medical degree from Stanford University. During her medical training, she worked as a Clinical Development Engineering Intern at Intuitive and later spent a year conducting orthopaedic trauma and spine research between her third and fourth years of medical school. In her free time, Josey enjoys boxing, finding new brunch spots, playing pickup soccer, playing her viola, traveling, and spending time with her corgi pup, Toki.

Ericka von Kaeppler, MD, PhD, grew up in Portola Valley, California. She earned her undergraduate degree in biology from Yale University where she played on the women's basketball team and discovered her passion for musculoskeletal science and medicine. After graduating, she returned to the Bay Area earning her MD and PhD in Stem Cell Biology & Regenerative Medicine from Stanford University's Medical Scientist Training Program. During medical school, she also worked in Tanzania as a research fellow with UCSF's Institute for Global Orthopaedics and Traumatology. In her free time, she is an avid women's college basketball fan and enjoys exploring new restaurants and spending weekend getaways on the coast.

Troy Amen, MD, MBA, grew up on the Florida-Georgia line in Tallahassee, Florida. He attended Columbia University, where he studied philosophy. After graduating, he worked as a high school teacher in Chicago teaching 9th grade biology. Troy received his medical degree from Harvard Medical School and completed an MBA at Harvard Business School. In his free time, he enjoys shooting hoops, watching Fresh Prince, mentoring his former students, and attending church-related activities with his wife Lauren and son Theo. After completing residency he will be moving back South for an upper extremity fellowship at Duke.

Joshua Turner Bram, MD, was born and raised in State College, Pennsylvania. He received his undergraduate degree from Penn State University, where he studied biology and immunology. Josh then moved to Philadelphia to attend the Perelman School of Medicine at the University of Pennsylvania, where he spent an additional year as a Benjamin Fox Orthopedic Research Fellow at the Children's Hospital of Philadelphia. In his free time, Josh enjoys hiking, cheering on Penn State football, and spending time with his wife, Michelle. After graduation, he will be returning to CHOP to complete a fellowship in pediatric orthopedics.

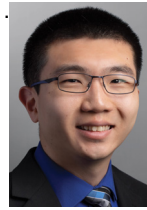

Ryann Davie, MD, was born and raised in the suburbs of Atlanta, Georgia. She attended the University of Oregon for undergraduate studies, where she concentrated in human physiology and chemistry. There, she was the captain of the varsity women's soccer team. After graduation, she spent two years working at Emory Sports Medicine and coaching soccer. Ryann earned her medical degree from the Medical College of Georgia. In her free time, she enjoys playing golf and exploring the city with her fiancé, Kegan. She is an avid Oregon Ducks fan and supports all Atlanta sports teams.

Hailey Paige Huddleston, MD, was born and raised in New York City. She completed her undergraduate education at Brown University, where she concentrated in neuroscience and fenced epee for Brown's varsity fencing team. Following a year conducting neurology research at Mt. Sinai Hospital, Hailey completed her medical degree at SUNY Downstate in Brooklyn. During her medical training, Hailey spent an additional year performing research within the Sports Medicine Division of Midwest Orthopedics at Rush in Chicago. In her free time, Hailey enjoys sketching, hiking in state parks, and finding the best pizza in NYC.

Austin Camron Kaidi, MD, MSc, grew up in Orange County, California. For his undergraduate education he attended the University of California, Los Angeles, where he received his degree in microbiology, immunology, and molecular genetics. Following graduation, he received a master's in public health from the London School of Hygiene and Tropical Medicine. Austin then moved to New York and earned his medical degree from the Columbia University Vagelos College of Physicians and Surgeons. After completing residency, he will be staying at HSS to complete fellowship in spine surgery. In his free time, he enjoys spending time with his wife, Julia, playing tennis, and exploring new restaurants.

Don Tianmu Li, MD, PhD, grew up in the suburbs of Philadelphia, Pennsylvania. He attended Yale University for undergraduate biochemistry studies and stayed at Yale School of Medicine for the Medical Scientist Training Program. There he completed his medical degree with clinical research in adolescent idiopathic scoliosis as well as a PhD in cell biology. In his free time, Don enjoys watching Broadway shows, playing board games, and exploring new places with his wife. He will be headed to a pediatric orthopedics fellowship at Nemours Dupont hospital in Delaware!

Jung Kee (Anthony) Mok, MD, was born in South Korea and raised in Atlanta, Georgia. He attended Georgia Tech, where he earned his undergraduate degree in biology. After graduation, he spent one year working at a basic science research lab at Georgia Tech, studying molecular mechanisms of bioremediation. He then moved to New York City to receive his medical degree from Weill Cornell Medicine. After completing residency, he will be staying at HSS for spine surgery fellowship. In his free time, he enjoys playing basketball, spending time with his fiancée, Lina, and cheering for the Atlanta sports teams.

Rafa Rahman, MD, MPH, was born in Bangladesh and grew up in northern Virginia. She attended Massachusetts Institute of Technology for her undergraduate studies, where she majored in biological engineering and minored in public policy. She received her medical degree from the Johns Hopkins University School of Medicine and her Master of Public Health from the Johns Hopkins Bloomberg School of Public Health. In her free time, Rafa likes to get outdoors, travel, and enjoy NYC with her husband, Eric, and cat, Percy.

Sreetha Sidharthan, MD, was born in Kerala, India, and grew up in Seattle. She attended the University of Washington and majored in biochemistry. Upon graduating, Sreetha spent two years at the National Institutes of Health managing clinical drug trials for hepatitis C treatment. She received her medical degree from David Geffen School of Medicine at UCLA. After residency, she will be going to Washington University in St. Louis to complete a hand and upper extremity fellowship. Outside of the hospital, Sreetha enjoys going for walks in Central Park with her husband Demetri, daughter Zoe, and goldendoodle Milo, exploring museums, and spending time with friends and loved ones.

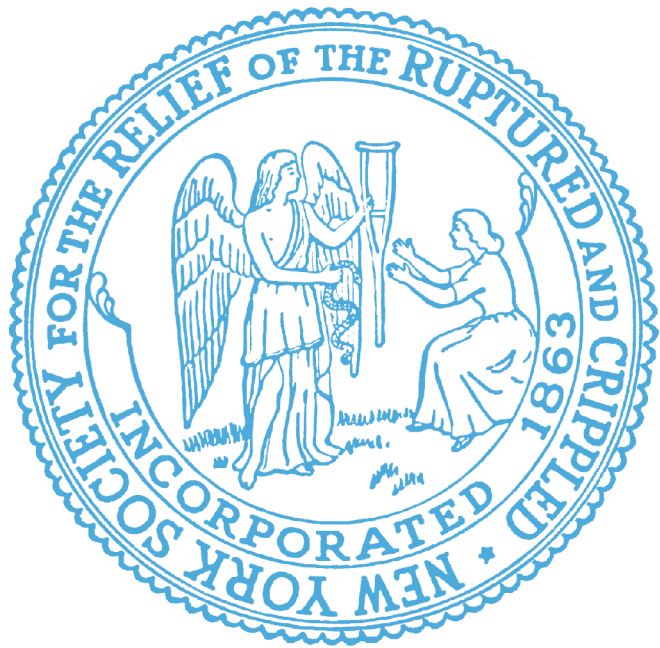

Nathan Varady, MD, MBA, grew up in Fayetteville, Arkansas. He attended the Massachusetts Institute of Technology for his undergraduate studies, where he majored in mechanical engineering and was captain of the varsity football team. Nathan received his medical degree from Harvard Medical School and earned an MBA from Harvard Business School. In his free time, he enjoys cheering on the Arkansas Razorbacks, listening to music, and spending time on the lake or in the mountains. After graduation, he will be completing a sports medicine fellowship at Rush.

Row one: (Left to right) Seong Jang, MD, Caroline Rossi, Tyler Khilnani, MD, Raylin Xu, MD, Nick Kochanek, Prerana Katiyar, MD, Mark Megerian, MD, Nicolas Pascual-Leone, MD, and Safi Aly at the Annual Ice Skating Event at Wollman Rink; Rajiv Reddy, MD, MS, Raylin Xu, MD, Michelle Zabat, MD, Branden Sosa, MD, Taylor Stauffer, MD, Andrew Leali, MD, Jennifer Kunes, MD, Mark Megerian, MD, Kristin Halvorsen, MD, Prerana Katiyar, MD

Row two: Celebrating the end of the academic year with a boat cruise; Frannie Coxe, MD, Mark Megerian, MD, Branden Sosa, MD, Taylor Stauffer, MD, Raylin Xu, MD, Joshua Bram, MD, Douglas E. Padgett, MD, Mihir Dekhne, MD, Olatunde Badejo, MD, Billy Kim, MD, Scott LaValva, MD at Bike HSS 2024

Row three: Raylin Xu, MD, Branden Sosa, MD, and Taylor Stauffer, MD, cross the finish at Bike HSS 2024; Annual Golf and Tennis Day 2025

Thank You

Hospital for Special Surgery gratefully thanks the Autumn Benefit Committee for ongoing support and major funding for several medical education initiatives, including the publication of *Meet Our Residents* and the *HSS Journal*®.

Thank you to all who participated in the 2024 Autumn Benefit and for continued support throughout the year.
